Why is Hybrid Financial essential to a successful Reg A offering?

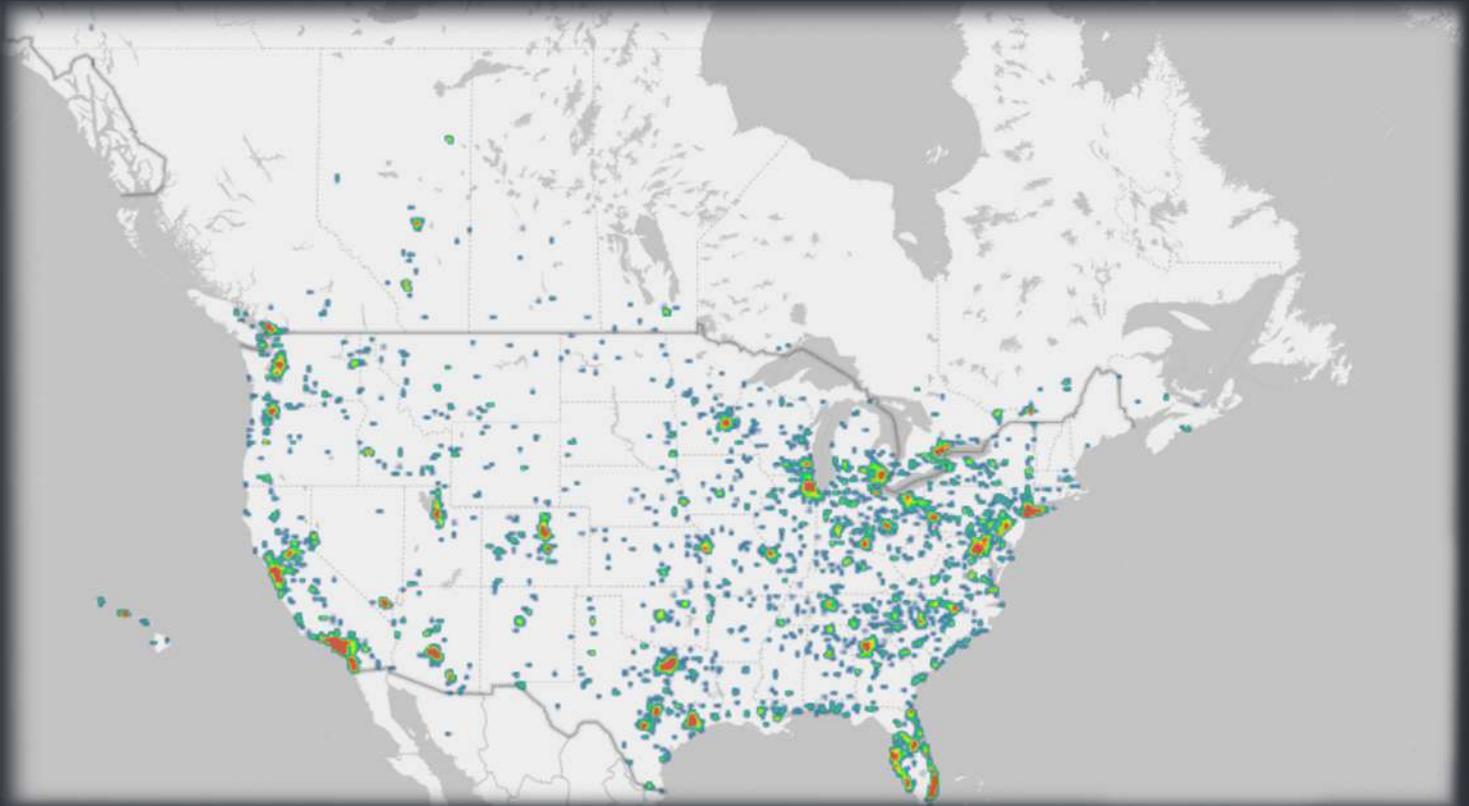

A successful Regulation A offering will yield thousands of potential investors from all different demographics. The challenge is that most of these investors need assistance in one form or another during the process. If you don't have a large, sophisticated team to help these investors with minimal lag time, you will lose investors and lose potential capital. This is where Hybrid becomes your solution.

Hybrid's team of 70+ trained professionals handle all investor inquiries by phone and by email in a timely and efficient manner. Hybrid's Reg A services include, but are not limited to:

- *Inbound and outbound call services*
- *Email communication*
- *Help the investor navigate the investment portal for all types of investments*
 - *(Company/LLCs, Trusts, IRAs, personal & joint accounts)*
- *Follow-up with investors for documents needed to pass through the Anti-Money Laundering portion of the process*
- *Contacting investors with unfunded accounts*
- *Answering investor questions about the company*
- *Keeping investors up to date on important dates and deadlines*
- *Handling investors' incentive requests*

NEXT STEPS

Capitalizing on this momentum is key to continued success post-offering. Hybrid will provide your company with a dedicated sales team that will distribute your message to the investment community, under your brand of course. All communication is tracked in real-time to maximize engagement with your shareholder base.

- 1000+ unique phone calls per month, in addition to tailored email campaigns designed to distribute news and engage with your pipeline.
- A list of your leads are sent on a weekly basis in addition to detailed monthly reports that provide full transparency into Hybrid's activities to date.
